

# International Workshop Mobile Networks for Biometric Data Analysis

New and innovative approaches dedicated to biometric data capture and analysis in a non-intrusive way maintaining mobility.

**October 30-31, 2014**

**Università Politecnica delle Marche, Ancona, Italy**  
*Facoltà di Ingegneria, via Breccie Bianche, Aula 160/3*

**[www.dii.univpm.it/mBiDA](http://www.dii.univpm.it/mBiDA)**

## October 30, 2014

Registration	8:30-9:15	
Welcome	9:30-9:45	
Round Table	9.45-11.00	Service and technologies for active ageing
Session 1	11:40-12:40	ICT for health care
Session 2	14:30-15:50	Biometric data in automotive and home applications
Session 3	16:20-17:30	Embedded systems for biometric data analysis

## October 31, 2014

Session 4	9:00-10:40	Biometric data analysis: EMG and ECG
Session 5	11:10-12:50	ICT for gait analysis
Closing	12:50-13.00	

**Steering Committee:** Massimo Conti, Natividad Martínez Madrid, Ralf Seepold

**Co-Organization:** PhD School in Engineering Sciences, Università Politecnica delle Marche

**Local Organization:**  Dipartimento di Ingegneria dell'Informazione  
 Università Politecnica delle Marche
